Latest Year Cash Flow

Pros • Revenue growing slower than profits shows improving operating leverage and scale benefits • Strong free cash flow generation over 5 years signals healthy business fundamentals • Return on equity improving for 3 consecutive years shows strengthening business quality • Operating profit margin above 25% indicates strong pricing power and cost discipline • Consistent dividend yield above 2% backed by positive free cash flow	Cons • Revenue growing at below 5% over 5 years lags inflation and suggests limited business momentum • Return on capital employed below 10% suggests the business is not generating sufficient returns on invested capital
